

My child is not in danger...they  
do not use the internet...

# Do you own a mobile phone?

# Does your child?

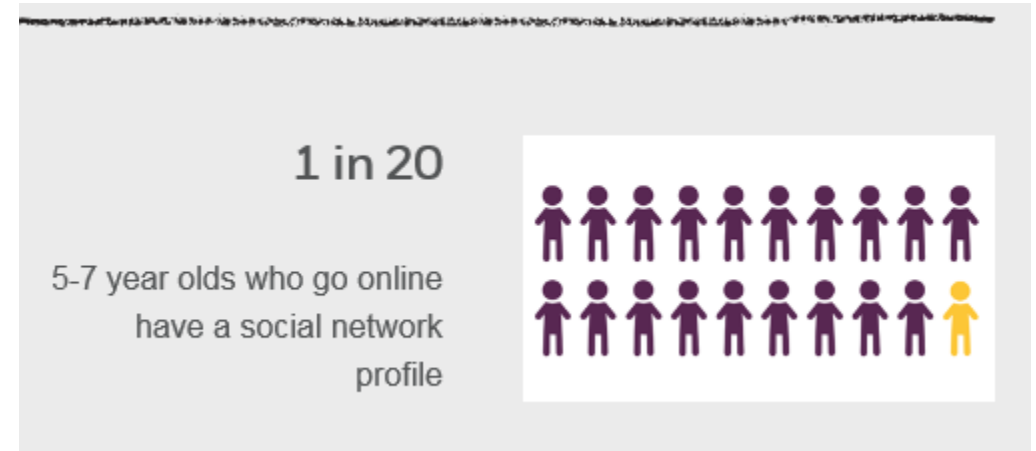

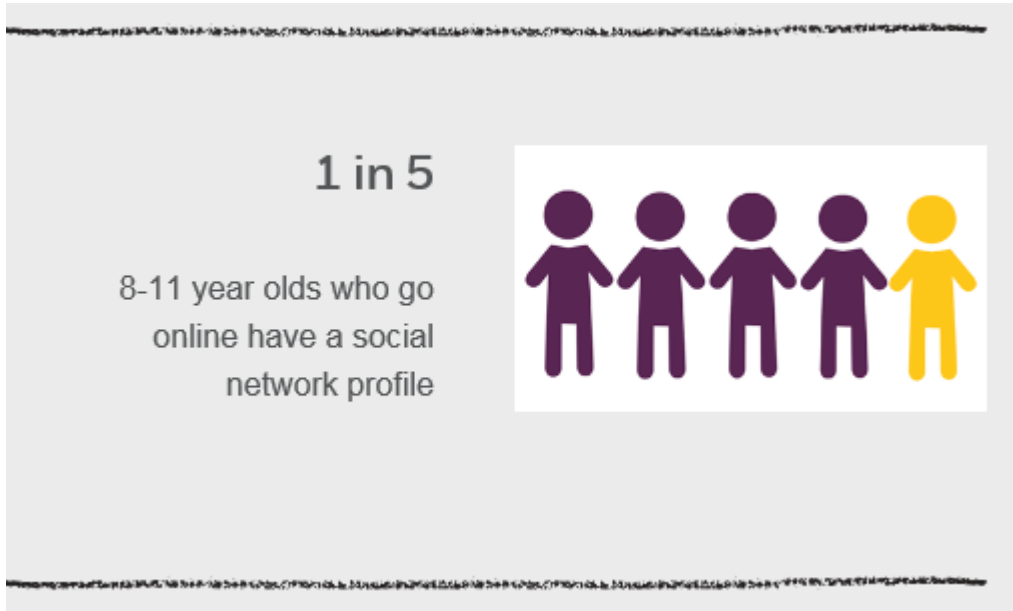

We all need to know  
how to be safe

# Talking to your child is the best way to keep them safe

Basically...

That means:

- In Blackbirds and Robins 3 children have a social network profile
- In Peacocks and Eagles 12 children have a social network profile

Your child will:

- talk to someone with a social network
- Go to tea with someone
- Have a sleepover

# Social networks, apps and games: what's popular?

Children and young people use social networks to:

- share photos and images
- message each other  
(sometimes in a group)
- chat with people via video
- make voice calls
- share content
- meet new people and chat to strangers
- play games

What's popular changes all the time.

# Talk about how they can stay safe on social networks

Ask your child if they know:

- where reporting functions are
- how to block someone
- how to keep information private.

Show them how to do these things. Use [Net Aware](#) to help you.

Talk about online privacy, and being [Share Aware](#). Explain that online behaviour – including sharing personal information – should mirror behaviour in person.

Explain that talking to strangers isn't always 'bad', but they should always be careful about what they share and sometimes people aren't who they say they are.

# Safety starts with you

You can also help your child by simply setting a good example online. It might not always feel like it, but your child does notice how you act and follow your lead. So it's important to show them what safe sharing looks like.
